

SNEHA K M

JUNIOR PENETRATION TESTER | CYBER SECURITY ANALYST

Kerala | +91 8714405217 | snehapanayathol217@gmail.com | linkedin.com/in/km-sneha | GitHub: km-sneha

PROFESSIONAL SUMMARY

Cybersecurity professional with hands-on experience in penetration testing, vulnerability assessment, and web/mobile security. Skilled in Burp Suite, Nmap, Nessus, Metasploit, and OWASP, with practical experience identifying vulnerabilities such as SQLi, XSS, and CSRF. Seeking opportunities as a Junior Penetration Tester or Cyber Security Analyst.

TECHNICAL SKILLS

- Web & Application Security:** Burp Suite, OWASP, SQLmap, HTTP/HTTPS, APIs, Authentication Mechanisms
- Network & Vulnerability Assessment:** Nmap, Nessus, TCP/IP, Port Scanning, Firewalls, VPNs
- Penetration Testing:** Metasploit, Hydra, Exploitation
- Operating Systems & Virtualization:** Kali Linux, Windows, VMware, VirtualBox
- Programming & Databases:** Python (Basic), SQL (Basic)

ACHIEVEMENTS

Inflectra Hall of Fame

- Recognized by Inflectra for responsibly disclosing a security vulnerability and contributing to improved platform security.

PROFESSIONAL EXPERIENCE

ETHICAL HACKING FACULTY - Avodha Pvt Ltd, Thiruvananthapuram June 2025 – Present

- Deliver hands-on cybersecurity and penetration testing training across **4 batches**, using Burp Suite, Nmap, Nessus, and Metasploit.
- Conduct practical penetration-testing labs, live demonstrations, and simulated attack environments covering web application vulnerability identification and security testing.
- Develop course content and mentor students in applying cybersecurity concepts and offensive security techniques.

CYBER SECURITY INTERN - Novavi Pvt Ltd, Kochi January 2025 – February 2025

- Identified and reported vulnerabilities in websites and Android applications.
- Performed vulnerability scanning, risk assessment, and security testing, including SQLi, XSS, and CSRF.

CYBER SECURITY INTERN - Pinnacle Labs Pvt Ltd May 2024 – June 2024

- Developed password analyzers and GUI-based encryption/decryption tools.
- Applied secure programming and user-friendly UI practices to cybersecurity awareness tools.

PROJECTS

Password Analyzer – GUI-based Password Strength Checker | [GitHub](#) April 2024 - May 2024

- Developed a GUI tool to analyze password strength using length, character diversity, and common-pattern checks.

SubFinder – Subdomain Enumeration & Live Checker Tool | [GitHub](#) July 2024 - August 2024

- Developed an automated subdomain enumeration tool with live checking and asynchronous processing.

Payload Generator – Encoding & Decoding Utility | [GitHub](#) September 2024- October 2024

- Developed a penetration-testing utility supporting Base64, URL, Hex, and Base32 encoding with MD5/SHA-256 hashing.

EDUCATION

Advanced Diploma in Cyber Security — Synnefo Solutions, Kochi, Kerala June 2024 – January 2025

Bachelor of Computer Application (BCA) — St. Mary's College, Sulthan Bathery, Wayanad, Kerala June 2021 – March 2024
| CGPA : 7.2

CERTIFICATIONS

Networking Certification - SN Associates May 2022

Python for Data Management & Machine Learning - L&T EduTech May 2023

Generative AI with Google Cloud - Google October 2023
